

SUCCESS IS A SPECTRUM Parent Conference

AutismAlliance
of Michigan

Friday, April 17, 2015 | 8:00 AM-3:00 PM

**Wayne County Community College District
Western Campus, Belleville, MI**

The **Success is a Spectrum Parent Conference** will provide information on today's best practices, evidence-based treatments and a number of relevant topics to give parents tools they can use to help their children with autism. Our goal is to share practical tools, strategies, and resources that can be used, immediately. Along with terrific breakout sessions, we've developed a dynamic event full of opportunities for conversation and problem solving. Come out to listen, share, network and grow.

Our **Opening Session** will feature a parent panel of autism heroes whose stories will allow us to look beyond the everyday challenges of raising a child with autism and celebrate success from multiple perspectives. Join AAoM in this unique, uplifting event!

Over 25 Breakout Topics by Some of Michigan's Exceptional Autism Professionals from Around the State :

- Challenging Behaviors
- ASD Diagnosis... So What Now?
- Community Mental Health Services for Autism
- Managing Family and Marital Stress
- The IEP from a Legal Perspective
- Transition to Employment
- Michigan Autism Insurance
- Including Your Child in Everyday Activities: Self Care and Chores
